TouchStone's September Update: New Partnerships & New Integrations

We're excited to share some big updates from TouchStone!

Canvassing Program Wrap-Up

TouchStone has officially concluded its canvassing program, [Stop the Engardio Recall](#) in San Francisco. Using our field application, we successfully knocked on **28,000 doors** between July and August. This milestone not only supported the campaign but also validated the initial phase of our application—demonstrating that it operates seamlessly in the field. We'd also like to thank Jimmy Lawson, a campaign veteran, for executing this project.

New Partnership

We are thrilled to announce a new partnership with the [Progressive Turnout Project \(PTP\)](#). Through this collaboration, TouchStone's software will be piloted across **California, Georgia, New Jersey, Pennsylvania and Virginia**.

With the support of PTP—the nation's largest grassroots-funded voter contact organization—our platform is more than just technology. It's a mission-driven tool to help build enduring progressive power, one conversation at a time.

New Integrations

TouchStone now integrates with [ActBlue](#), the leading fundraising platform powered by small-dollar donors. This integration introduces powerful new features:

- Real-time donation tracking
- Seamless giving experiences through in-app QR codes
- Automatic supporter data syncing

- Instant acknowledgments and receipts

These capabilities allow campaigns to connect field organizing directly with fundraising—streamlining efforts and maximizing impact.

Website Update

We've also refreshed our website to better highlight how TouchStone is helping modernize fieldwork in the progressive and Democratic space.

TouchStone has had some big wins this year, and Gerrit and I want to thank you for your support as we grow this organization to be a leading voter contact platform in the Democratic and Progressive field. As always, if you'd like to catch up, feel free to schedule some time to connect with me [here](#).

If you're in an area like me, enjoy what's left of the nice weather before it gets too cold!
